

Frequency Rehab

Science and Society

Saving Lives and Healthcare Costs

The basis of life is energy that comes from air, water and food. Lose your energy, you get depressed and eventually die. What is this thing called 'energy?' The religious world calls it 'spirituality'. Science says it is spinning electrons. Hollywood calls it the life 'Force.' "The Force is strong in him," says Yoda in Starwars. In the battle between good and evil, losing your energy is like "selling your soul to the devil."

In this issue you will learn of new ways to boost your natural energy, immunity against diseases, while helping to reduce healthcare costs and the damage from drugs. Why neglect life-energy when it is so important to health and longevity? This has everything to do with music, frequencies of sound and light, that can be curative and rejuvenating.

Natural Medicine News

Healing Music Saves Lives & Money Using Nature's Favorite Frequencies

Why does some music relax people while other music stresses them? Harvard-trained science scholar Dr. Leonard Horowitz's explanation is revolutionizing the healing arts and sciences. Fueled by nature's 'good vibrations' people are healing 'miraculously' using powerful frequencies. Available for 'group therapy,' this 'energy medicine' promises caregivers and receivers alike tremendous benefits.

To restore wellness most enjoyably you can use the media to broadcast special healing frequencies of light and sound. That's the simple solution to the healthcare crisis, according to Dr. Horowitz. He treats audiences using special healing music videos that deliver therapeutic

energies that are central to nature. He incorporates behavioral therapies that reduce pain and suffering. He treats depression, drug dependence, and aggression with

'Frequency Rehabilitation.' This personal enrichment experience is like group 'edutainment.' It is perfect for community program directors, healthcare providers, and the hospitality industry at large.

"If you want to secure health and happiness, heal miraculously, beat depression, kick addictive meds, save money and lives, it makes common sense

to rely on nature's most powerful frequencies that mold you, heal you, and sustain you," says Dr. Horowitz. "You have nothing to lose, no risks, low costs, and great benefits to gain."

You are the music manifesting miraculously in the frequency of central sunshine and rainbow hearts--pure 'LOVE 528.'

Dr. Leonard G. Horowitz, January 2019

Continuing Education

A Course in 'Miraculous Healing' Using Frequencies

How to Use Nature's Most Powerful Frequencies

Dr. Horowitz and his partner, Sherri Kane, teach a course that empowers caregiving through the use of nature's most healing frequencies. They demonstrate using 'medicinal music' in 'energy medicine' for individuals and groups. Lay and professional caregivers, such as chiropractors, massage therapists, Reiki practitioners, homeopaths, sound healing therapists, and people who need to heal themselves or desire to help heal their loved-ones, applaud their revolutionary teachings. Users develop

knowledge, skills, materials and equipment to administer 'Frequency Rehab' demonstrating healing miracles.

Demystifying Miracle-making

In their course you learn the bio-physics and electro-mechanics of producing miracles. "This involves powerful

positive intention in loving hearts," says Kane. Science-based

common-sense shows how faithful prayers can amplify hands-on healing miracles.

Pioneering Energy Medicine Equipment

The instructors draw on the latest advances in water science, electro-chemistry, bio-physics and energy medicine to teach how you too can produce health-enhancing and revitalizing products and equipment. For example, instructions are shared for producing 'structured water' resonating in the core creative frequencies of nature. This knowledge and equipment, available through FrequencyRehab.com, makes caregiving and healing much easier.

You are the music, being renewed every nano-instant in LOVE/528.

Award Winning Science Scholar

Harvard-Trained Surgeon Dr. Horowitz

Dr. Horowitz has been christened the "King David of Natural Healing," and the "Maestro of 528Hz" by fans worldwide. During the 1970s and 80s, Dr. Horowitz worked as a general dentist, oral surgeon, anatomy instructor at Tufts

University, and research faculty member at Harvard University. He pioneered a holistic medicine clinic specializing in head and neck pain relief, the first in America to be written up by the *Associated Press*. His works in behavioral medicine and consumer health awareness have been featured on every major television network. Sherri Kane is a gifted intuitive healer and psycho-social analyst who launched 528Records.com, a healing music transposition service affiliated with the non-profit Medical Veritas International, Inc.

Personal Enrichment

Ecstatic Dance Exercise for Community Wellness

A variety of healing and rehabilitating activities can be done while enjoying music-videos made in the frequencies of nature. Community wellness and group experiences are enhanced using Dr. Horowitz's *Solfeggio Eclectica* audio and music-video therapy programs. Audiences can enjoy these therapies in many ways. Physically-challenged people can enjoy them in bed, sitting comfortably, or moving when possible.

Others can dance, stretch or exercise using these musical materials. Groups and communities enhance wellness by 'ecstatic dancing.' Special frequencies are chosen for 'chakra balancing.' These activities can restore health and rejuvenate energy in whole people.

Nature's Music Cures Diseases

Everyone knows that sunshine fuels and sustains life. But most people don't realize it is the special frequencies within sunshine that do the most good. Dr. Horowitz and his team of researchers spent nearly two

decades researching the 'special frequencies' in sunlight that source from sound, actually 'musical mathematics.' They determined the good vibrations were found in the ancient Solfeggio musical scale.

Frequencies Cure Diseases

For instance, babies born with liver disease, called "jaundice," naturally heal when exposed to sunlight. The air you breathe, full of oxygen, delivers similar electrons of energy and "alkalinity" that keeps you alive.

Organic Chemistry

Biology is based on Carbon-6 rings that gain their structure and life sustaining power from the 528nm of light and 528Hz frequency of sound at the heart of the electromagnetic and acoustic spectrums.

Oxygen Vibrates

Oxygen's electrons vibrate at the same frequency at the heart of sunshine. That's the color of green chlorophyll (in plants and algae) that produces the oxygen. This science also proves your physical health and longevity depends on electrons vibrating in this color and sound.

Different Frequencies

Different frequencies do different things. The special 528 frequency at the heart of sunshine, for instance, is called the 'miracle note' in the Solfeggio musical scale.

Water and Lava Rock

You are made of sound and light impacting 80% of your body that is like sea water—a superconductor of sound and light frequencies. Add 20% of your body made from lava rock—mineral elements that also vibrate mathematically according to special frequencies in nature—and that's what you're made of.

Stress & Depression

Does stress and certain music distress you, while peace and other music pleases you? In deep sleep certain brain wave frequencies heal you. That's why restful sleep is good when you're sick or feeling depressed.

The Miracle Note

This 'MI' note is largely responsible for producing six-sided hexagonal shapes central to nature and organic chemistry. Snowflakes and honeycombs, for instance, vibrate at this frequency. Bees actually buzz in 528Hz in their hives.

'The Zone' of Health

The good vibrations of nature uplift your mood, health, and happiness. To stay in that 'Zone' of total well-being, you can use certain frequencies of sound, and homeopathic products made with those energies according to Dr. Horowitz.

Healthcare Providers and Activities Directors' Special Offers

Medical Veritas International, Inc. proudly publishes and grants honorable licensing agreements, professional certificates of completion for Dr. Horowitz's 'Frequency Rehab Course,' and virtual franchises to caregivers. Information on these opportunities are available via the contacts below.

Benefits of Sponsoring 'Frequency Rehab' Events

-  Help people feel, look, and act healthier, including developing better lifestyle habits for curing physical and mental illnesses.
-  Help people overcome chronic pain, depression, and dangerous drug addictions.
-  Financial benefits to you and/or your community, including saving the costs of drugs and illness.
-  Develop better informed and more effective caregivers.
-  Help program administrators and activities directors be more successful and appreciated.
-  Develop businesses, careers, and new, better, or expanded revenue streams.
-  Gain positive and unique marketing opportunities for greater social, community, or market acceptance.
-  Contribute to healthcare's evolution in favor of world health and economic security.
-  Encourages positive advancements in medicine, and higher quality care with patient-centered practices.
-  Enrich people's lives with meaningful and spiritually-uplifting content; while administering entertainment, stress management and social support.

Frequency Rehab Products

Dr. Horowitz's Bio-Energy Buys for Better Health

OxySilver Natural Anti-biotic

OxySilver is the first and only safe and effective broad-spectrum anti-microbial that resonates at the frequency of 528Hz to match your heart's good-vibration and positive intention to heal quickly or never get sick at all. Go to: OxySilver.com.

CBD528 Drug-free Remedy

Help relieve pain and depression, as well as aid in the withdrawal from opioid addictions. Puts you in "The Zone" of bliss!

Chakra-balancing Disk Set

A wonderful set of seven frequency generators to balance and restore your natural energy centers. See: ChakraDisk.com

Bio-Energy Technology Wands

Painless healing energy delivery instruments powered by your own magnetically-enhanced bio-field.
